

### 3.02 Signaling - Deliberate Fire

(1) In deliberate fire competitions, each shot will be signaled separately. When a shot has been fired, the target shall be lowered and the position(s) of all hit(s) found, if there are any, will be shown by spotting indicator(s) plugged in the bullet hole(s). All previous holes shall be patched. The value of the highest scoring hit found on the target will be shown by a further, but different, indicator, placed along the edge of the target in accordance with the following code:

						
<u>Miss</u> score	<u>Hit</u> score	<u>Outer</u> score	<u>Magpie</u> score	<u>Inner</u> score	<u>Bull</u> score	<u>V-Bull</u> score
0	1	2	3	4	5	5V

(2) A spotting or value indicator that has been hit **MUST NOT** be used again until it has been patched; in the case of 300 yard or 300 metre events the disc **MUST** be discarded.

(3) When examining targets, the possibility must always be considered that a hit may have occurred through the spotting disc or value indicator without blowing its peg out. Such a hole may be close to "keyholing" the previous shot on that target, and must not be overlooked or inadvertently patched over, otherwise the shooter could unfairly lose the value of a shot to which he is legally entitled.

(4) For "F" Class competitors only, the Statistics Office will change each 5V to score six points each, but scorers must still enter a 'V' on the scorecard.

### 3.03 to 3.05 inclusive Reserved

### 3.06 Scoring - General

(1) When a shot of any calibre touches the line between the scoring divisions of the target, as measured by a gauge of 0.308"/7.62mm diameter, the competitor will be credited with the higher value.

(2) A "V" Bull scores five points, but is better than an "ordinary" bullseye. For example, a score of 50 with 9 "Vs" is higher than a score of 50 with 8 "Vs". For "F" Class competitors only, the Statistics Office will change each 5V to score six points.

(3) No competitor may, under any circumstances, knowingly claim or accept points which he has not made, or connive at any such conduct by another competitor. See Rules 9.16(7) and 26.02 (9).

(4) A Range Officer may not go to the butts to inspect a target, nor allow anyone reporting to him, or any competitor to do so.
